

MARINA

150 / 200W

Specifications

Model	150,200W
Material	Die Cast Aluminum
Input Voltage	100-240V AC
Power Factor	Minimum 0.95
Frequency	50/60HZ
CCT	4000/5000/6400K
RA	>80
Beam Angle	120°
Lumen efficacy	>130 LM/W
LED	Philips - LUMILED
Driver	Or according to customer request Mean Well Or according to customer request

150w

19500LM

200w

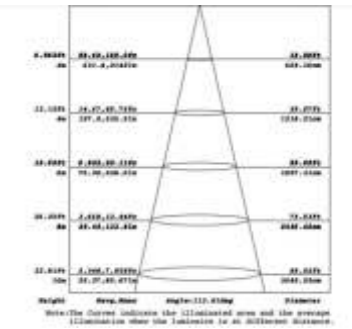

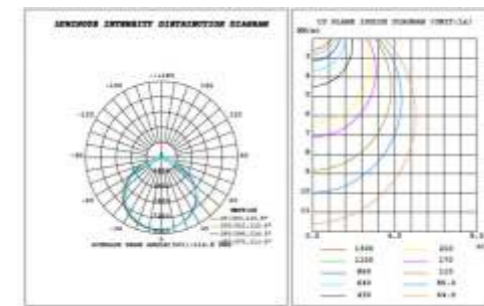

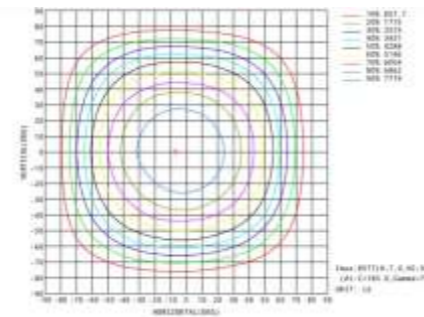

26000LM

IP Rating
IP 65

Warranty
150w / 200w
5 3
years

Life Time
50.000
hour

Our company owns a foundry to manufacture the housing

About us :

Established with a strong background in high pressure die casting, "GestLed " was founded in 2015. In the past decade, the company has made a significant influence on the Egyptian market positioning itself as one of the most growing lighting companies GestLed offers a wide range of standard and customize designs for Street led light , floodlight , high bay and down lights . We have our designer and mold shop that gives us a great degree of flexibility to respond to customer needs and industry trends. We have our R&D department which keeps us always in the leading position of lighting industries The plant, which is located at the heart of new industrial areas in Egypt at 10th of Ramadan city in Al Sharqia, is about 3000 square meter. In order to adapt to the rapid local and global changes in the industry, the most technologically advanced machines are utilized with the most caliber proficient manpower in our field to create globally top notch quality product.
